Thanks, for taking the time to review my portfolio! I photograph weddings using a combination of traditional, photo-journalistic and fine art styles. I remain mostly anonymous "capturing" images as I find them. My photography portrays the natural emotion of a moment without distraction. My subtle approach and familiar personality helps me to photograph your wedding day seamlessly. I'll do the work; you relax and enjoy your day!

Typically I will begin your wedding day coverage with the bride, as she is getting ready, arriving at the ceremony, groom/groomsmen ahead of ceremony, ceremony, formal indoor/outdoor shots, introductions to the reception, and all formal events until I fulfill the coverage you've selected. Additional time may be contracted prior or requested on the spot for an additional \$150/hour charge. Payment for additional time is due upon request. A \$500 deposit is due upon the signing of the wedding contract and is necessary to insure my availability for the day of your wedding. Payments may be made at any time (cash/ check/ paypal). The balance is due one week prior to your wedding date. **Have a tight budget? I can work with you to help reduce a package to fit your needs.** If you have a special request, customization or cool idea, please don't hesitate to ask!

Proof Album(s): Receive your photos in up to two proof albums!

You will receive your proof album(s) within about six weeks of your wedding day. These albums are mixed color and black and white, with image wrap hard covers. These “contemporary” albums have flat printed pages that contain at least 300 – 4x6 inch images. All images have a corresponding image number used for ordering enlargements. The images do not say “Proof” on them. These artistic and modern, coffee table style albums have 7x7 inch hard covers with photos on the front and back. Extra copies can be ordered additionally for \$250 each.

Wedding Day Slideshow Presentation/Flat Screen Slide Show

During the dinner hour I will create a laptop computer slide show using photos taken earlier in the day that will play on a flat screen monitor (or projection system if available at your location). This unique presentation is immediate assurance that your photos are as fabulous as you expected and are a memorable addition to your wedding day!

Online Photo Gallery

Every couple at your reception will receive a card at their place setting with simple instructions about where to view your wedding photos online. This included feature is great for out of state guests and friends and alleviates you from having to coordinate intricate photo orders from family and friends...besides, what could be better than sitting by the pool on your honeymoon cruise, drinking a margarita and viewing your own beautiful wedding photos?

Digital Image Disc With Copyright \$450

All color files and black & white files will be copied onto a disc with a copyright letter included. These images are full resolution, big enough to print billboards of your self!

Formal Wedding Albums

Pricing for formal albums is completely separate from the wedding photography price. I do not require you to order fixed album packages. We can deal with albums separately for several reasons... You have enough expenses ahead of your wedding day, why pay for an album when you haven't even seen your photos? Another reason is complexity. There are many aspects to decide upon, such as album style, cover material, layout and of course which photos you like most. You will have enough to plan for without designing a wedding album before your wedding day... for these reasons we can discuss the formal album after your honeymoon.
